BUSINESS MANAGEMENT POLICY

Marcopolo South Africa, a manufacturer of buses and minibuses, recognizes the Quality of products, services, Health and Safety of employees, as an integral part of its Business Management, establishing ways to allow these systems to be implemented, maintained and continuously improved, aiming for economic and financial solidity.

The company undertakes to:

- Act to provide mobility solutions in a sustainable way.
- Encourage participation and consultation of employees to avoid hazards, reducing risks and any other work-related issues.
- Provide health and safety working conditions to prevent accidents and occupational illnesses.
- Ensure the increasing satisfaction of its customers and other interested parties through the search for continuous improvement and excellence in the quality of products and services.
- Ensure the application of laws, rules, and other regulations, to effectively achieve the planned strategies and objectives.
- Be an ethical company, committed to follow all laws and legislations, in particular the anti-corruption law, anti-money laundering and protection of free competition.
- Seeking a competitive edge in supply chain management by working together and strengthening partnerships.
